

Brewfitt

FUTURE OF DISPENSE

- BE READY
- BE SAFE
- GIVE CONFIDENCE

Developed exclusively in partnership with Holchem and Key Keg, the Hand Sanitisation Station from Brewfitt is a fully mobile dispense station capable of delivering up to 7500 doses of Covid-19 killing antibacterial hand solution.

Manufactured in Great Britain from high quality commercial grade stainless steel, the Hand Sanitiser Station is fully mobile and requires no power to function. Uniquely designed Brewfitt technology dispenses a measure of Holchem's Handsan anti-bacterial solution, proven to kill Covid-19.

Each unit neatly hold a 20 and 30 litre Key Keg providing enough Handsan to dispense up to 7500 of the recommended 4ml dose.

A complete solution for the hospitality industry, public places and buildings with high footfall.

Features:

- Robust stainless steel casing
- Fully mobile, no power required
- Dispenses up to 7500 doses between keg changes
- Handsan antibacterial solution proven to kill the Covid-19 virus
- Simple to set up and operate
- Branding options available

Prices from:

Handsan product 20 litres with Co2 Canister £131.22 + VAT

Handsan product 30 litres with Co2 Canister £172.65 + VAT
